Tamer Elkateb, Rick Chalaturnyk, and Peter K. Robertson An overview of soil heterogeneity: quantification and implications on geotechnical field problems 1

Tamer Elkateb, Rick Chalaturnyk, and Peter K. Robertson Simplified geostatistical analysis of earthquake-induced ground response at the Wildlife Site, California, U.S.A 16

Kenneth G. Gavin and Barry M. Lehane The shaft capacity of pipe piles in sand 36

Fei Cai and Keizo Ugai Response of flexible piles under laterally linear movement of the sliding layer in landslides 46

Gordon A. Fenton and D.V. Griffiths Bearing-capacity prediction of spatially random $c - \phi$ soils 54

Chris R. Daniel, John A. Howie, and Alex Sy A method for correlating large penetration test (LPT) to standard penetration test (SPT) blow counts 66

M.P. O'Neill, M.F. Bransby, and M.F. Randolph Drag anchor fluke–soil interaction in clays 78

Ron C.K. Wong A model for strain-induced permeability anisotropy in deformable granular media 95

Samir Hebib and Eric R. Farrell Some experiences on the stabilization of Irish peats 107

J. Côté and J.-M. Konrad Assessment of the hydraulic characteristics of unsaturated base-course materials: a practical method for pavement engineers 121

Craig Nichol, Leslie Smith, and Roger Beckie Time domain reflectrometry measurements of water content in coarse waste rock 137

Dominique Guyonnet, Jean-Christophe Gourry, Lucien Bertrand, and Nadia Amraoui Heterogeneity detection in an experimental clay liner 149

M. Hürlimann, D. Rickenmann and C. Graf Field and monitoring data of debris-flow events in the Swiss Alps 161

G.B. Crosta and F. Agliardi Failure forecast for large rock slides by surface displacement measurements 176

H. El-Ramly, N.R. Morgenstern, and D.M. Cruden Probabilistic stability analysis of a tailings dyke on presheared clay–shale 192

NOTE / NOTE

Gavan Hunter and Robin Fell Prediction of impending failure of embankments on soft ground 209

DISCUSSIONS / DISCUSSIONS

Venanzio R. Greco Discussion of "An efficient search method for finding the critical circular slip surface using the Monte Carlo technique" 221

A.I. Husein Malkawi, W.F. Hassan, and S.K. Sarma Reply to the discussion by V.R. Greco on "An efficient search method for finding the critical circular slip surface using the Monte Carlo technique" 223
